

Civil Service Superannuation Fund

October 2020
RETIREE NEWSLETTER

APRIL 1, 2020 VALUATION - FUNDED STATUS 113.2%

LIABILITIES - \$1.77 billion	SURPLUS \$0.23 billion
ASSETS - \$2.00 billion	

INDEXATION AWARD EFFECTIVE JANUARY 1, 2021 – 2.00%

Under the terms of the Civil Service Superannuation Act, when the Civil Service Superannuation Fund (i.e. the plan) has a funded status greater than 110%, the plan is required to provide an annual increase to your pension to help offset the impact of inflation (this increase is known as indexation).

To determine the plan's funded status, a valuation is conducted annually. The 2020 valuation report shows that the plan's funded status was 113.2%, so an increase is warranted.

The legislation uses March 31st as the inflation measure date. For March 31, 2020, inflation was 2.00%. Please note – this is calculated using Statistics Canada's Canada-All Items measure March over March.

Given the size of the surplus, there are sufficient funds to provide full indexation. Therefore, your monthly pension will increase by 2.00%, effective January 2021.

For any retiree who **commenced pension part-way through 2020**, the January 2021 indexation amount shall be pro-rated based on your date of retirement (subsequent years will be eligible for the full indexation award).

MARITAL DECLARATION FORMS UPDATE

A Marital Declaration form was sent to all pensioners in early 2020. If you have not yet returned a form, or cannot remember if you have done so, don't panic! We will reach out to you with a reminder letter in December 2020. Please note – if you are a spouse or dependant, you would not have received a form and are not required to submit anything.

The Civil Service Superannuation Commission would like to thank the vast majority of pensioners who have already returned their completed form.
